two (2) copies attached.

1. By reference (a) it was requested that a Film Rewind Unit be developed for use in the Information Control Branch/PSD/NPIC.

2. In response to this requirement, a temporary film rewind unit was built by [REDACTED] EDL/P&DS. His evaluation, reference (b), states that this unit has a limited life expectancy and suggests that immediate steps be taken to initiate procurement of one which is more durable.
